

# AUTHOR GUIDELINES

The scope of the manuscript published in the *Indonesian Polymer Journal* is the result of research and development in the field of polymers, with the discussion covering: synthesis and reaction of polymers, polymer alloys, polymer composites, polymer modification, polymer physics, polymer processing and development of polymer products.

## MANUSCRIPT

The manuscript should be written in Bahasa Indonesia or English, typed on A4 size paper using the Windows Microsoft Word software, with the line spacing "Exactly at 12 pt" and the Calibri (Body) font type. The manuscript should be written in the form of two columns with margin size 1.78 cm and 3.1 cm, respectively, for the top and bottom margins, and 1.5 cm for each left and right margins. The first part of the manuscript must include the following sections (respectively): the title of the manuscript (14.5 pt, bold) no more than 30 words, accompanied by the author's name (10 pt), the author's affiliation and the address of the author that is easily contacted (7 pt, italic). Also put a telephone number, fax or e-mail. Abstract (8 pt) should be written in Bahasa Indonesia and English, including background, research method, results, and conclusions. The abstract should be written concisely and clearly and does not exceed 200 words. Abstracts should not be written in more than one paragraph. Keywords contain at least 5 keywords. The structure of the manuscript consists of an Introduction, Experimental Method (covering materials and work methods), Results and Discussion, Conclusions, Conflict of Interest, Acknowledgments, and Reference, which are all written in 9 pt font size.

## REFERENCE

The reference that is referred to at least having 80% of the publication five years before the year the article was submitted. The reference should be written following the chronology of the discussion. Footnote is written using roman numerals and written superscript after a period like the following example:

"Cras condimentum urna sed velit pretium porta. Nam volutpat sodales molestie. Etiam pulvinar tortor condimentum eros volut-pat congue.<sup>1</sup>"

Whereas the Reference is written in the following format:

- 1 N.R. Brostowitz, R.A. Weiss and K.A. Cavicchi, Facile Fabrication of a Shape Memory Polymer by Swelling Cross-Linked Natural Rubber with Stearic Acid, *ACS Macro Lett.*, 2014, **3(4)**, 374–377.
- 2 S. Samaržija-Jovanović, V. Jovanović, G. Marković and M. Marinović-Cincović, The Effect of Different Types of Carbon Blacks on the Rheological and Thermal Properties of Acrylonitrile Butadiene Rubber, *J. Therm. Anal. Calorim.*, 2009, **98(1)**, 275–283.

## TABLE AND FIGURE

The figure description should be written at the bottom of the figure or graphic with numbering following the discussion flow. The title of the figure should be written in bold, parallel to the text without indenting. Each figure is given as clear and informative information as possible. If requested, the original image will be returned to the author within a month. If within the period specified by the author does not want the image, the editor has the right to destroy the picture. The table description is written at the top of the table with numbering in accordance with the discussion flow. The title of the table is written in bold, parallel to the text without indenting. Each table should be as clear and informative as possible.

## EQUATION

The chemical equations and mathematical equations should be written without indenting and numbered with Arabic numerals, following the flow of discussion.

Please submit the manuscript to the Editorial of *Indonesian Polymer Journal* via e-mail mpi@hpi-polimer.org. The editorial board has the right to reject an article that is considered ineligible, after hearing the opinions from several experts. The editorial board has the right to change and adjust the language and terms without changing the content, without notifying the author in advance. If content changes are considered necessary, they will be consulted with the author. Manuscripts published in the *Indonesian Polymer Journal* are the rights of the *Indonesian Polymer Association* (HPI), and the reprint must be licensed by the Editorial Board.
